

J.B. Marshall

Cold Brew

NITROGEN INFUSED COFFEE

J.B. Marshall

FRESHLY BREWED CUSTOM GROUNDS

Now On Tap!

Smoother Flavor

Cold brew coffee has increased in popularity due to its smoother and less bitter flavor as compared to traditional hot brew coffee.

Cascading Pour

The specialty faucet features a cascading pour, creating a pleasing mouth feel and crema.

Insulated Tower

The inner lining of the tower is foam insulated so that liquid sitting in the lines stays cold - your brew is cold as soon as you pull the tap.

Compact Size

Compact Size: With just a 25" x 21" footprint, this unit can exist just about anywhere.

Temperature Range

Low 30's to mid 40's

Quality Components Included

This dispense system arrives with everything needed to tap your first cold brew: A draft tower, specialty faucet, classic tap handle, dual-gauge Nitrogen regulator, & 60 lb. Nitrogen tank
